

## October 22, 2018 is Municipal Election Day in Ontario

Almost 30% of Ontario residents were born outside Canada. Immigrants, refugees, migrant workers and international students are critical to Ontario's economic growth, and make Ontario communities strong.

---

Municipal leaders have an important role to play in building strong communities that welcome everyone, and that build on the full potential of refugees, immigrants and migrants.

Immigrants, refugees and migrants in general are over-represented among those who face disproportionate disadvantage in Ontario communities. Factors such as race, gender, LGBTQ2 identity, disability, religion or faith identity, immigration status and more can present further barriers. Some important concerns are:

- Affordable and appropriate housing (including social housing)
- Affordable public transit and effective and adequate service
- Access to good jobs
- Affordable, regulated childcare
- Community safety
- Access to municipal services
